To Whom It May Concern

RE: LETTER OF RECOMMENDATION – INDLOVU CONSTRUCTION (PTY) LTD.

This serves to confirm that we have as Consulting Engineers worked with Indlovu Construction on several residential building projects and the very challenging recently completed vertical expansion of the Durban High School Science block and the new Old Boy's Pavilion, as well as on several civil engineering projects.

They have always performed extremely well on both the structural and civil works projects undertaken with us, being both innovative and efficient in their approach with a strong commitment to programmed timelines.

I have no hesitation in recommending them very highly for work in both these fields.

Yours faithfully
